ABOUT CER

Crypto Exchange Ranks is an platform that provides all-inclusive objective crypto exchange ratings and analytics for making proper investment and trading decisions.

CER analyzes broad risk areas, including:

- liquidity
- compliance and reliability
- public opinion
- cybersecurity level

We offer access to a wide spectrum of analytical information that is collected, systematized, and processed. To do this, we employ specifically developed algorithms and

OUR MISSION

We innovate the global financial system developing and setting clear and objective standards for crypto exchanges as a backbone of the crypto economy. We believe that by following this method, we will help accelerate the maturity of the industry.

PROBLEM WE SOLVE

Nowadays, almost 200 crypto exchanges exist. This number generates a whole universe of data that an investor must consider before making proper investment and trading decisions.

UNIQUE SOLUTION

Seeing how difficult it is to trust exchanges, we've provided a unique solution, analyzing and processing a broad complex of data through advanced economic-mathematical modeling, artificial intelligence, machine learning, natural language processing and cybersecurity assessments.

Our clients are granted access to highly precise ratings and analytics of crypto exchanges, according to a broad range of analyzed parameters of risk evaluation and trading opportunities. Our ratings significantly enhance everyday investment and trading decision-making processes.

CER's analytics brings greater value to individual and institutional investors, brokers, traders, and even crypto exchanges and regulatory authorities.

CER TEAM

Dmytro Shestakov
CEO

Dmytro has 12 years experience in investment management and strategic development, with an MBA in finance at Kyiv-Mohyla Business School. Before CER, Dmytro worked as Vice-President for Strategy and Development at Ukrainian Interbank Currency Exchange and was a member of the task force engaged in strategy development and reforms of Ukrainian State Defense Concern "Ukroboronprom".

Dmitriy Budorin
CEO of Hacken, Mother Company of CER

Dmytro Budorin Dmytro is ACCA; he worked at Deloitte for 8 years in various audit, ERP implementation, and project management positions. While at Deloitte, Dmytro won the Deloitte CIS Audit Challenge with his audit of a Big Data SAP solution, which CIS offices widely implemented. As of late, he has been one of the top executives in Ukraine's military defense industry. At Hacken, Dmytro takes a leading role: he is responsible for all managerial decisions and implementation of Hacken's long-term and short-term strategic goals

Volodymyr Hryshakov
Senior Research Analyst

Volodymyr has over 6 years experience in trading on US stock markets, with a bachelor degree in Finance. In 2017, he passed the CFA Level 1 Exam. Before CER, Volodymyr worked as a proprietary stock trader and as an analyst in a couple of HFT (High-Frequency Trading) and crypto-related projects.

Anton Kaminsky Business Development Director

Anton has 10 years experience in the financial sphere and exchange-traded products development, with a Master's degree in finance from Yu. Fedkovych Chernivtsi National University. In 2017, he passed the CFA (Chartered Financial Analyst) Level 2 Exam and became one step closer to getting his CFA charter. Before CER, Anton worked as an Executive Director of leading a Ukrainian Commodity Exchange.

Hleb Myrko Demand Generation Director of Hacken

Hleb started his career as co-founder of an educational project focused on African and Asian markets. Simultaneously, he worked for UvoCorp as a writing mentor and corporate trainer. Hleb has a Master's Degree in Management and Economics and is a certified inbound marketer. At Hacken, Hleb is responsible for generating demand on each strategic direction of the Hacken Ecosystem operations, including HKN token, HackenProof, CER, Hub Services, and HackIT Conference.
